

65% of all UK railborne containers pass through Freightliner's terminals

Freightliner would like to congratulate IFW on celebrating their 40th Anniversary

Freightliner Ltd operates more than 100 daily rail services between the key deepsea ports and 15 strategically located inland terminals. Combined with our fleet of more than 300 road vehicles, this enables us to offer a complete port to door service - with an industry-leading 98% on-time delivery. Customers can choose a trunk rail move or the complete logistics package.

With nine of our own inland terminals and secure laden and empty container storage facilities, we can offer the full range of facilities and services for our customers needs.
