

Sail straight to France

At the Port of Dover we're constantly improving to make every journey as quick and efficient as possible. Not only do we offer the fastest sea crossings to France, via Calais or Dunkerque, they're also the most frequent. With over 50 return crossings running 24 hours a day and 26 check-in lanes, drivers can simply turn up and go with no hanging around.

Onboard is a pleasant, relaxing atmosphere where drivers can rest and refresh, enjoying the open sea and fresh air, before continuing their journey on the continental motorway networks.

So if you have business on the continent, take the ferry from Dover – you'll notice the difference.
